

7<sup>th</sup> March 2024

Dear Parents/Carers,

**RE: SENECA Homework Platform**

Microsoft Teams is our digital education platform that both students and staff use to support collaborative learning both inside and outside the school. This will continue to be an integral part of how students will receive information, homework and share lesson material or additional resources from teachers.

We have also launched SENECA as an online homework and revision tool for our students from KS3 to KS5. SENECA's online adaptive learning platform can be thought of as **an effective & engaging interactive learning and revision guide**. Parents should have received an email invite to join SENECA so that your account is linked with your child/children. This platform allows you to:

- Track your child's homework when assignments are set and complete
- Weekly summary reports of study activity including the amount of time students have spent and average score
- A summary of strengths and weaknesses broken down by topics
- Parents can monitor multiple siblings from their account

In order to access SENECA your child will be able to log in on a phone, tablet or computer and study any of their school subjects. This will be using their school email address and password. We are delighted to already have over 400 parents logged on and supporting their child with their online homework.

Thank you for your continued support of St Augustine's. If you have any queries regarding SENECA or wanting the email invite resent, please do not hesitate to contact me.

Yours faithfully,

**Mrs A Patel**

Subject Leader of Geography & Extended Leadership Team
